IMPORTANT

- Power factor of 0.89 is below the 0.90 norm — a penalty of 1% of energy + demand charges has been levied. PF above 0.95 earns an incentive of 0.5% per 0.01.
- Billed demand is the highest of: actual MDI (465 kVA) or 85% of contract demand (425 kVA).
- TOD peak-hour consumption (18–22 hrs) is billed at Rs. 8.55/unit vs Rs. 5.95 off-peak. Shifting load to 22:00–06:00 reduces energy cost.
- Units billed this month: 1,42,300 kWh. Previous month: 1,38,940 kWh.
